Jay

The members of the Southwest Washington Anglers are excited that your club has agreed to be part of the Angler's Passport program. We see this as a mutually beneficial and collaborative effort between our clubs. Our hope is that we can interest new anglers, reinvigorate current anglers and grow our clubs membership in meaningful ways.

We look forward to partnering with you throughout the year in education forums as well as at our volunteer events. We are committed to making this program a success and your support and belief in the project will help keep us focused on making this first year a real success.

We look forward to a mutually beneficial partnership. We will be in touch asking for dates where we can join your meeting to make the passport available to your members as well as validating their catches and activities.

Please feel free to reach out to us with any questions!

Our sincere thanks for your participation in this program!

The Board of Directors
Southwest Washington Anglers
